

How to download Ameriabank's plugin

Ameriabank plugin enables you to do online shopping and pay by cards at online stores.

Downloading a plugin is easy and takes only a few seconds.

Once downloaded, you will have access to the default configurations of the plugin which you may change at any time, if necessary.

The minimum version of Shopware compatible with plugin is 5.4.0, and the minimum compatible version of PHP is 5.6.

Before installing the plugin, please, remember that it is based on php soap client.

Make sure that soap client is properly installed/activated on your server, otherwise install it.

For more information click [here](https://stackoverflow.com/questions/11584426/how-do-i-enable-enable-soap-in-php-on-linux) (<https://stackoverflow.com/questions/11584426/how-do-i-enable-enable-soap-in-php-on-linux>) to install it.

Required steps:

1. Download plugin
2. Install plugin
3. Activate plugin
4. Make respective configurations
5. Empty/update online store cache
